- Print the washi tape word choice cards, blank swap strips, and adult guide pages before the adult-led paper session.
- Begin with one plain fictional line, then coach word choice through precise nouns, clear verbs, useful describing words, phrase swaps, sentence rhythm, and final revision.
- Keep every example made-up, broad, offline, printable, and guided by an adult.
- Use short tape strips to mark one word or phrase at a time so the writer can compare choices without crowding the page.
- Replace narrow real details with pretend names, broad story places, and invented objects before writing begins.
- End each activity by writing a final revised fictional line that sounds clearer, smoother, and more specific on paper.

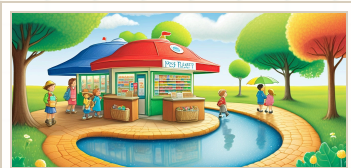

Use one washi tape story word-choice card at a time. Keep every choice broad, invented, paper-only, and screen-free.
