Run the story club

Before club

Print one director copy, one active club format, and enough take-home prompt cards for the planned group size.

Choose a calm invented setting, an ordinary object, and a small friendly mix-up for the adult example.

Place pencils, blank paper, choice slips, and plain folders in a single supply bin before the room opens.

Pick one main format and one quieter backup format so the session can adjust without extra prep.

Prepare a thirty-second adult model that uses only invented details and shows one clear next action.

Room setup

Set tables so writers can see the adult leader, reach supplies, and keep their pages on the table.

Put only the active page, pencils, and a small stack of blank paper within reach at the start.

Keep take-home prompt cards in a separate folder until the last few minutes of club.

Use table symbols, color dots, or plain folders if pages need simple sorting after the session.

Create one quiet corner with the same writing page for participants who prefer a lower-noise start.

Running club

Open with the session choice, read the first direction aloud, and show one invented adult example.

Move through one task at a time: setting, helper, object, small mix-up, next action, and ending.

Offer two invented options when a writer is stuck instead of asking for personal facts.

Invite participation through writing, sketch labels, pointing to a choice, or dictating one phrase to the adult leader.

End by asking each writer to mark one title, sentence, sketch, or detail they want to keep.

Quiet participation

Allow passing during discussion while still giving the writer a page and a clear private task.

Use silent choice slips so a participant can point to setting, object, or ending options without speaking.

Let writers circle, underline, or sketch a response when full sentences feel too large for the moment.

Pair a quiet writer with the adult leader for one dictated phrase if the writer wants support.

Offer a take-home prompt card as the finish step for anyone who completes the club page early.

No-data use

Do not collect personal details; all stories use invented places, invented helpers, and ordinary objects.

This kit has no personal lists, personal labels, digital collection, image collection, or web-sharing step.

Keep every page printable, offline, and handled by the adult leader, participant, or family.

Use symbols, color dots, or plain folders for organization instead of private identifiers.

Family handoff

Send home the finished page, one optional prompt card, and a short note that the story details are invented.

Tell families the prompt card is optional and can be completed with pointing, sketching, or one sentence.

Mark one simple next step such as add a title, add one clearer detail, or finish the ending.

Keep any group sharing optional and focused on a title, sketch, object, or invented setting detail.
